Introduction

This document is the user manual of *Soldino*, a project by *8Lab Solutions* based on the Ethereum infrastructure. *Soldino* is a platform, managed by the Government, that allows users to buy goods and services and allows business to manage the VATs related to those products. More precisely:

- citizens can:
 - buy goods and services;
- Business can:
 - sell goods and services;
 - buy goods and services;
 - manage VAT;
- Government can:
 - activate new users;
 - deactivate existing users;
 - mint Cubits;
 - distribute Cubits;
 - reimburse business of their VAT credit;

Requirements

To be able to use *Soldino* you must have the latest version one of the following browsers:

- Google Chrome;
