1 Introduction

This document s the user manual of *Soldino*, a project by *8Lab Solutions* based on the Erhereum infrastructure. *Soldino* is a platform, managed by the Government, that allows users to buy good and services and allows business to manage the VATs related to those products. More precisely:

- citizens can:
  - buy goods and services;
- Business can:
  - sell goods and services;
  - buy goods and services;
  - manage VAT;
- Government can:
  - activate new users;
  - deactivate existing users;
  - mint Cubits;
  - distribute Cubits;
  - reimburse business of their VAT credit;

2 Requiremets

To be able to use *Soldino* you must have the latest version one of the following browsers:

- Google Chrome;
- Mozilla Firefox.

You also must have the MetaMask plugin installed in your browser.

2.1 MetaMask

2.1.1 Installation

Before entering *Soldino* check if you have MetaMask, a bridge between your browser and the Ethereum network, installed. If you don't, visit https://metamask.io to download it.
